

Landed Cost Estimate

One lane, one product, costed end to end, so you know your delivered price before you quote it.

EUR 149 · delivered next business day
Africa only · every claim carries its source and date

What this is not

It is not a binding quotation. We are not your forwarder or your customs broker.

It is not an introduction. Nothing here includes a meeting, a warm handover, or anyone from MRX approaching a company on your behalf. That is a mandate, and it is a different product.

Provenance, on every claim

Every claim in the full deliverable is tagged so you know what you are relying on: **[D]** desk, public source named and dated · **[P]** pipeline, our own sourcing, Reoon power-mode verified · **[F]** field, observed by our operators in market · **[E]** estimate, our calculation with the method shown.

About this sample. It shows what the deliverable covers and how we approach it. Every operational figure, rate, name, margin and deadline is withheld, because that is what you are buying.

The cost stack we build

Line	Your lane
HS classification	
Import duty	
Destination levies	
VAT	
Ocean freight	
Insurance	
Port and terminal handling	
Clearing agent	
Demurrage assumption	
Inland haulage	
Delivered cost per unit	
Margin room at your target price	

Why the levies matter more than the duty *(reproduced in full)*

Exporters quote CIF, win on price, and then lose the account when the delivered number arrives. The duty rate is the part everyone checks. The part that moves the outcome is the stack of percentage levies applied to customs value regardless of your tariff line, plus the inland leg, which in several African markets costs more than the ocean freight that carried the goods thousands of miles.

Every line we give you is labelled sourced, quoted or estimated, with the method shown where it is estimated. You will know which numbers you can hold a supplier to and which are our judgment.

Order the Landed Cost Estimate — EUR 149, delivered next business day.

mrexporttoafrika.com/intelligence · The price is credited in full against a market entry mandate signed within 90 days.
